ABOUT ME

First-year CSE (AIML) student with hands-on experience in software development, data analytics, and AI-based projects. Skilled in Java, Python, JavaScript, and MySQL, with a strong foundation in problem-solving and teamwork. Passionate about building impactful technology solutions and continuously learning emerging technologies.

EDUCATION

SRMIST UNIVERSITY, KATTANKULATHUR 2025–Present
B.Tech CSE with specialization in AI & ML | CGPA: 9.07

IIT MADRAS, 2025–Present
BS in Data Science

SKILLS

- **Technical Skills:**
 - **Programming Languages:** Java, Python, JavaScript, C, C++, HTML
 - **Frameworks & Technologies:** Spring Boot, Apache Kafka, REST APIs
 - **Databases:** MySQL and MongoDB
 - **Tools:** Git, GitHub, VS Code, IntelliJ IDEA, Android Studio, Postman, Maven
 - **AI & Data Analytics:** Machine Learning, Data Analytics, Generative AI, Prompt Engineering
 - **Hardware & Embedded Systems:** Arduino, Sensor Integration, Serial Communication
- **Professional Skills:**
 - **Problem Solving**
 - **Communication**
 - **Teamwork**
 - **Leadership**
 - **Adaptability**
 - **Critical Thinking**
 - **Time Management**

WORK EXPERIENCE

Bandhan Life Insurance Ltd. – Data Analytics Intern JUN 2026 – JULY 2026

Contributing to the development of a Generative AI-powered medical underwriting system for risk assessment and decision support.

- Assisting in the development of AI-driven systems for medical report interpretation and risk evaluation.
- Contributing to workflow optimization and automation initiatives within the underwriting process.

JPMorgan Chase & Co. Forage – Software Engineering Virtual Experience Participant MAY 2026 – MAY 2026

Worked on simulated real-world engineering tasks inspired by applications used in the financial services industry.

- Built and enhanced scalable backend components using Java, Spring Boot, and database technologies.
- Applied modern software development practices including API development, testing, and event-driven architecture.

POSITION OF RESPONSIBILITY

CLASS REPRESENTATIVE (CR) | SRM INSTITUTE OF SCIENCE AND TECHNOLOGY

2025-Present

- Acted as the primary liaison between faculty and students.
- Coordinated academic communications and addressed student concerns.

CERTIFICATIONS

- Stanford Code in Place | Stanford University
- Software Engineering Virtual Experience Program | JPMorgan Chase & Co. (Forage)
- Microsoft AI for Beginners | Microsoft & Skill India
- Claude Code 101 | Anthropic
- AI Fluency for Students | Anthropic
- NIPAM (National Intellectual Property Awareness Mission) | Government of India

EXTRACURRICULAR ACTIVITIES

- Led a team during NMS Code For Good 2024, coordinating project development, collaboration, and presentation in a competitive hackathon environment.
- Participated in Techformers 1.0 Hackathon, independently developing and presenting a solution to address the given challenge

LANGUAGES

- English
- Hindi
- Odia

RELEVANT COURSEWORK

- Data Structures & Algorithms
- Object-Oriented Programming
- Database Management Systems
- Machine Learning
- Data Analytics
- Statistics for Data Science
- Computer Organization & Architecture
- Software Engineering
- Deep Learning Foundations
- Operating Systems

INTERESTS

- Artificial Intelligence and Machine Learning
- Software Development
- Data Analytics
- Basketball
- Robotics and Embedded Systems
- Technology Research
